The three arms: ρ is a measurement with both extremes and a principled NA, not a rhetorical device
(a) 0 partial transfer
δ=+0.48 ρ=0.98
(b) 1 reproductive resource
δ=+0.53 ρ=0.98
(c) 2 competitor suppression
δ=+0.48 ρ=0.91-1.10
(d) dose-response
Φ (autonomous cycles of the focal lineage)
